AAI	10-3	8 – 19 Feb 2010

The USC Aviation Safety and Security Certificate Program has been accepted by the FAA Aviation Maintenance Technical Award Program to assist in qualifying for awards in that program. Portions of the training requirements for each of the award levels can be satisfied using training received in this program. Reference <http://www.faa.gov/avr/afs/safety/AMT.cfm> for further information. CEU's earned while attending classes in the USC Aviation Safety and Security Program may be used towards receiving the FAA's highest award, the "Diamond Award", given to eligible technicians and their employers (please see FAA Advisory Circular (AC) 65-25B for eligibility requirements).

In addition, the International Federation of Air Line Pilots' Association (IFALPA) recognizes recipients of the USC Aviation Safety Certificate as experts in Aviation Safety.
