Bring your resume to register to win  
an Intel Powered Netbook

Food will be served

## Join us at Intel India.

Please join us to hear **Bhartendu Sinha**, Director for Client Software & Solutions at Intel India, discussing exciting opportunities available at Intel's Bangalore site!

Bhartendu manages product engineering teams developing PC/laptop/tablet/phone embedded and applications software. Earlier he managed Intel's Datacenter & Connected Systems Group in India delivering manageability, cloud, software, etc. Prior to Intel from 1993 he led research, engineering, products, marketing, businesses and technology ventures at Motorola, Hughes, TI & startups. He holds a B. Tech in Electrical Engineering from IIT Kanpur, an M. Tech Computer Science from IIT Kanpur, a Professional Masters in Telecom & Software Engineering from Illinois Institute of Technology and a Post Graduate Diploma in Management from IIM Ahmedabad. He enjoys time with his family (including 2 and 11 year-olds) and creative writing.

Intel India is looking for MS and PhD students with backgrounds in: Electrical and Computer Engineering, Computer Science, and related disciplines

For more information on opportunities for students and recent college grads visit: [intel.com/jobs/students](http://intel.com/jobs/students). To be considered for onsite campus interviews, please visit [www.intel.com/jobs](http://www.intel.com/jobs) and apply to 705215
