

Neurodiversity in the Workplace: A Dialogue with Recruiters

Jan 28, 12-1:30pm, UVF 1100

Inside the McCarthy Honors Residential College at the Village

Come have lunch with corporate recruiters committed to hiring diverse talent in a unique event tailored for neurodiverse students. We encourage the attendance of any students with attentional, developmental, and learning differences.

In collaboration with *The Spectrum Works*, you will:

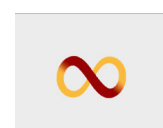

1. Share your input and experience with the traditional HR hiring process
2. Hear why neurodiversity (a diversity of minds) is valued as a competitive advantage in the workplace
3. Meet recruiters to learn about internship and career opportunities at companies committed to diverse hiring

Be prepared to share your experiences and resume with recruiters.

Hope to see you there!
