**MEETING ID: 943 9859 8467**

Professor Anita Dashiell-Sparks, Professor Antonio Elefano, and Dr. Mark Miller will gather for a conversation moderated by Dr. Quade French. They will discuss what inspires them to do their best work and how to access creativity during times of personal – and global – difficulty. They will also consider how to find a creative spark at times when we are distanced from one another and the activities that help us feel motivated.

Come be  
**inspired**  
**reassured**  
**stimulated**  
or simply **present.**

**Creativity thrives in a community, so we hope to see you there.**
