

Qiang Huang

Professor, Fellow of IISE and ASME
Daniel J. Epstein Department of Industrial and Systems Engineering
Mork Family Department of Chemical Engineering and Materials Science
University of Southern California, Los Angeles, CA 90089
Email: qiang.huang@usc.edu
Web: <http://HuangLab.usc.edu>

Research Interests

- Quality Control Theory and Methods for Personalized Manufacturing
- Finite Manufacturing Primitive Method for Personalized Manufacturing
- Machine Learning for Additive Manufacturing (ML4AM)
- Control-Theoretic Machine Learning for Engineering Systems
- Integrated Nanomanufacturing & Nanoinformatics (INN)

Education

Ph.D. Industrial and Operations Engineering, University of Michigan, August 2003
M.A. Statistics, University of Michigan, April 2002
Ph.D. Mechanical Engineering, Shanghai JiaoTong University, December 1998
M.S. Mechanical Engineering, Shanghai JiaoTong University, February 1996
B.S. Mechanical Engineering, Shanghai JiaoTong University, July 1993

Professional Experience

Professor, Daniel J. Epstein Department of Industrial and Systems Engineering, University of Southern California, Los Angeles, CA, May 2020 ~ present.

Visiting Professor, Smart Manufacturing Thrust, Hong Kong University of Science and Technology (Guangzhou), February 2023 ~ May 2023 (During sabbatical leave).

Invited Professor, LURP (Automated Production Research Laboratory), Ecole Normale Supérieure (ENS) Paris-Saclay, June 15, 2022 ~ July 15, 2022.

Associate Professor, Daniel J. Epstein Department of Industrial and Systems Engineering, University of Southern California, Los Angeles, CA, March 2012 ~ May 2020.

Invited Professor, LURP (Automated Production Research Laboratory), Ecole Normale Supérieure (ENS) Paris-Saclay, May 22, 2017 ~ July 20, 2017.

Gordon S. Marshall Early Career Chair in Engineering, University of Southern California, Los Angeles, CA, January 2012 ~ August 2016.

Visiting Professor, Department of Electrical Engineering Katholieke Universiteit (KU) Leuven, Belgium, Feb 21 to Mar 5, July 2016 (sponsored by European ERC and US NSF collaboration program)

Visiting Senior Professor, Department of Mechanical Engineering, Politecnico Di Milano (Polimi), Milan, Italy, March 2016 ~ June 2016 (During sabbatical leave).

Visiting Associate Professor, Dept. of Industrial Engineering and Logistics Management, Hong Kong University of Science and Technology, June 10 ~ July 10, 2013

Assistant Professor, Daniel J. Epstein Department of Industrial and Systems Engineering, University of Southern California, Los Angeles, CA, August 2009 ~ March 2012.

Associate Professor, Department of Industrial and Management Systems Engineering, University of South Florida, Tampa, FL, June 2008 ~ August 2009.

Member of Scientific Committee, Center for Quality Science at Academy of Mathematics & System Sciences, Chinese Academy of Sciences, 2008 ~ 2011.

Assistant Professor, Department of Industrial and Management Systems Engineering, University of South Florida, Tampa, FL, August 2003 ~ June 2008.

Honors and Awards

1. Plenary Speaker, "An Impulse Response Formulation for Machine Learning of 3D Printing Accuracy," The 19th International Conference on Electrical Engineering, Computing Science and Automatic Control (CCE 2022: <https://cce.cinvestav.mx>), Mexico City, November 9-11, 2022.
2. ASME Fellow Award, American Society of Mechanical Engineers (ASME), June 1, 2022
3. IISE Fellow Award, Institute of Industrial and Systems Engineers (IISE), May 2022
4. The 2022 IISE Quality Control and Reliability Engineering (QCRE) Track Best Paper Award, 2022 Institute of Industrial and Systems Engineers (IISE) Conference, May 21-24, 2022, Seattle, WA.
5. The 2021 IEEE CASE Best Conference Paper Award, 2021 IEEE International Conference on Automation Science and Engineering (CASE 2021), August 23-27, 2021, Lyon, France.
6. Keynote speaker, "Geometric Shape Accuracy Control for Additive Manufacturing Through Machine Learning," European Forum on Additive Manufacturing, June 27-29, 2017, Paris, France (<http://www.afpr.asso.fr/les-assises/>).
7. Finalist, 2016 INFORMS QSR (Quality, Statistics, and Reliability) Best Referred Paper Finalist, "Model Transfer via Equivalent Effects of Lurking Variables," co-authored with Prof. A. Sabbaghi.
8. 2013 IEEE Transactions on Automation Science and Engineering Best Paper Award, IEEE Robotics and Automation Society. Received during IEEE CASE 2014, August 18-22, 2014, Taipei, Taiwan.
9. 2014 IEEE CASE Best Application Paper Award Finalist, the tenth IEEE International Conference on Automation Science and Engineering (CASE 2014), August 18-22, 2014, Taipei, Taiwan.
10. NSF Faculty Early Career Development (CAREER) Award, 2011.
Supplement award for conducting research collaborations through EU-funded European Research Council (ERC) grant at Katholieke Universiteit (KU) Leuven, Belgium, 2016.
11. Gordon S. Marshall Early Career Chair in Engineering, USC, January 2012 – August 2016.
12. Featured Research on ISE Magazine (June 2020)
Jin*, Y., Qin, S., and Huang, Q., 2020, "Modeling Inter-layer Interactions for Out-of-Plane Shape Deviation Reduction in Additive Manufacturing" *IISE Transactions on Design and Manufacturing*, Vol. 52 (7), pp. 721-731.
13. Featured Research on ISE Magazine (September 2018)
Duanmu*, Y., Riche, C., Gupta, M., Malmsdat, N., and Huang, Q., 2018, "Scale-up Modeling for Droplet Formation in Coated Microfluidic T-junction Across Multiple Domains," *IISE Transactions on Quality and Reliability*, Vol. 50(10), pp. 892-899.
14. Featured research on ISE Magazine (April 2015), INFORMS 2014, and The Third International Conference on the Interface between Statistics and Engineering, Hong Kong, 2014 – IIE Transactions Invited Session Paper: "Optimal Offline Compensation of Shape Shrinkage for 3D Printing Processes", *IIE Transactions on Quality and Reliability*, Vol. 47, No. 5, pp. 431-441.
15. One of the 12 Invited Speakers for "Nanoinformatics 2013: Informatics for Nanomanufacturing," National Nanomanufacturing Network, October 15-17, 2013, University of Pennsylvania, Philadelphia.
16. Phi Tau Phi Scholastic Honor Society of America, April 2013 – Present
17. Featured research on ISE Magazine (December 2010)
Huang, Q., 2011, "Physics-Driven Bayesian Hierarchical Modeling of Nanowire Growth Process At Each Scale," *IIE Transactions on Quality and Reliability*, Vol. 43, pp. 1-11.

18. Featured research on ISE Magazine (April 2006)
Wang, H., and Huang, Q., 2006, "Error Cancellation Modeling and Its Application in Machining Process Control," *IIE Transactions on Quality and Reliability*, Vol.38, pp.379–388.

Honors and Awards of PhD Students and Post-Docs

1. Dr. Cesar Ruiz, Assistant Professor at the University of Oklahoma, Finalist of the Peter Luh Memorial Best Paper Award for Young Researcher. His paper is:
Ruiz, Cesar*; Bhatt, Prahar; Gupta, Satyandra K.; Huang, Qiang, 2023, "Process-Informed Segmentation of Dense Point Clouds for Layer Quality Assessment in Large-Scale Metal Additive Manufacturing", *2023 IEEE International Conference on Automation Science and Engineering (CASE 2023)*, August 26-30, 2023, Auckland, New Zealand.
2. Weizhi Lin, The Best Poster Award of 2022 INFORMS QSR Student Poster Competition: "Patch-Based Functional Deviation Characterization and Prediction for Complex Freeform Manifolds in Additive Manufacturing." 2022 INFORMS Annual Meeting, October 16-19, 2022, Indianapolis, IN.
3. Weizhi Lin, The 2022 IISE Quality Control and Reliability Engineering (QCRE) Track Best Paper Award, 2022 Institute of Industrial and Systems Engineers (IISE) Conference, May 21-24, 2022, Seattle, WA.
4. Yuanxiang Wang, The 2021 IEEE CASE Best Conference Paper Award, Yuanxiang Wang, Cesar Ruiz, and Qiang Huang, 2021, "Extended Fabrication-Aware Convolution Learning Framework for Predicting 3D Shape Deformation in Additive Manufacturing," *2021 IEEE International Conference on Automation Science and Engineering (CASE 2021)*, August 23-27, 2021, Lyon, France.
5. Christopher Henson*, Nathan Decker* (PhD students under my supervision), Honorable Mention, 2021 NAMRC Student Research Presentation Award, Christopher Henson*, Nathan Decker and Qiang Huang, 2021, "A Digital Twin Strategy for Major Failure Detection in Fused Deposition Modeling Processes," *SME North American Manufacturing Research Conference (NAMRC) 49*, June 21-25, 2021, Cincinnati, OH.
6. Christopher Henson* and Nathan Decker* , Finalist of the Student Manufacturing Design Competition, NAMRC & MSEC Manufacturing Research Virtual Conference 2021, June 21-25, 2021, Cincinnati, OH.
7. Nathan Decker*, Winner of the RAMP (Reusable Abstractions of Manufacturing Processes) 2019 Competition (<https://event.asme.org/MSEC/Program/RAMP-2019-Competition>), the 2019 ASME 14th International Manufacturing Science and Engineering Conference, Erie, PA, June 10-June 14, 2019.
8. Li Wang, Finalists for 2012 INFORMS-QSR Best Student Paper Competition: Li Wang, "Cross-Domain Model Building and Validation (CDMV): A New Modeling Strategy to Reinforce Understanding of Nanomanufacturing Processes,"

Research

Research Grants

1. PI, *Process Analytics Consortium for Future Industrial Systems*, Siemens, \$50K, 09/2023 ~ 8/2024.
2. PI, *3D Terahertz Imaging System with FPGA Accelerator for Robust Defect Detection*, Pratt & Whitney Institute for Collaborative Engineering Board, \$104K of total \$240K (PI in S. Korea: Gyungsu Byun), 08/2022~ 8/2024.
3. PI, *Smart Multi-Nozzle, Multi-Material 3D Printing System for Fabrication of High-Temperature Plastic Composites Parts*, Pratt & Whitney Institute for Collaborative Engineering Board, \$120K of total \$240K (PI in S. Korea: Joo-Hyung Kim), 07/01/2020~ 06/30/2022.
4. PI, *On-Site Non-Intrusive Inspection and Maintenance System Using Terahertz Imaging and Artificial Intelligent Accelerating*, Pratt & Whitney Institute for Collaborative Engineering Board, \$120K of total \$240K (PI in S. Korea: Gyungsu Byun), 07/01/2020~ 06/30/2022.

5. PI, *Shape Deviation Generator and Learner- An Engineering-Informed Convolution Modeling and Learning Framework for Additive Manufacturing Accuracy Control*, NSF CMMI-1901514, \$366K, 08/15/2019~ 08/14/2023. (REU supplement: \$16K in 2020)
6. Senior Personnel/Co-PI, *ECR: PEER: Development of Modular, Scalable, and Extensible Advanced Manufacturing Curriculum*, NSF DUE-1935712, \$156K of total \$1,999,846, (PI: SK Gupta, Co-PIs: Gisele Ragusa, Sven Koenig, Azad Madni, Yong Chen, Qiang Huang), 08/2019-08/2023.
7. Co-PI, *AM Data Modeling for Machine Learning and Data-Centric Analytics for Smart Aerospace Additive Manufacturing*, DOE Clean Energy Smart Manufacturing Innovation Institute (CESMII), \$60K of total \$750K, 12/2019~ 12/2020 (PI: Honeywell Aerospace, Co-PIs: Raytheon, USC, UCLA, Missouri S&T, KAM, Identify3D, Sentient Science).
8. PI, *Data-Centric Modeling, Prediction, and Control of CNT Dispersion in Composite Materials*, \$5K, Airbus Institute for Engineering Research (AIER) at USC, 2018.
9. Lead PI, *Collaborative Research: EAGER: Explore the Theoretical Framework of Engineering Knowledge Transfer in Cybermanufacturing Systems*, NSF CMMI-1744121, \$50K of total \$160K, 08/15/2017~ 08/14/2018 (PIs: A. Sabbaghi at Purdue U; M. Plumlee at U of Michigan; H. Wang at FSU).
10. Lead PI, *CPS:Synergy:Collaborative Research: Smart Calibration Through Deep Learning for High-Confidence and Interoperable Cyber-Physical Additive Manufacturing Systems*, NSF CMMI-1544917, \$350K of total \$650K, 09/01/2015~08/31/2020 (PI at Purdue U: A. Sabbaghi, \$300K).
11. Lead PI, *Collaborative Research: Geometric Shape Error Control for High-Precision Additive Manufacturing*, NSF CMMI-1333550, \$285K of total \$400K, 08/2013~07/2018 (Co-PI at USC: Y. Chen; PI at Harvard University: T. Dasgupta, \$115K).
12. PI, *CAREER: Nanomanufacturing Process Modeling and Control – A Foundation for Large-Scale Production*, NSF CMMI-1055394, \$406,329, 08/2011~07/2017 (including NSF supplement award for NSF CAREER grant awardee to conduct research collaborations through EU-funded European Research Council (ERC) grant “Advanced Data-Driven Black-Box Modeling”, Katholieke Universiteit (KU) Leuven, Belgium; \$6,329.00, 07/2015~07/2017.)
13. PI, *RAMP-UP: Robust and Smart Control of Additive Manufacturing Processes for High Geometric Accuracy*, Oak Ridge National Laboratory (ORNL), US Department of Energy; ORNL grant #: 4000145653, \$100K, 03/15/2016~03/14/2017, under ORNL “Research for Additive Manufacturing Program – University Partnerships (RAMP-UP)”.
14. Co-PI (50% effort), *Cyber-Enabled Manufacturing Systems (CeMS): Real-Time Shape Compensation for Accurate Direct Digital Manufacturing*, Office of Naval Research, ONR Grant# N000141110671, \$439,645, 2011~2015 (PI: Y. Chen at USC).
15. Lead PI, *Collaborative Research: Nanostructure Growth Process Modeling and Optimal Experimental Strategies for Repeatable Fabrication of Nanostructures for Application in Photovoltaics*, NSF CMMI-1000972, \$300K of total \$460K, 2010~2013 (Co-PI at USC: C. Zhou; PI at Harvard University: T. Dasgupta, \$160K).
16. PI, *In Situ Nanomanufacturing Process Control Through Multiscale Nanostructure Growth Modeling*, NSF CMMI-0728100 & CMMI-1002580, \$350K, 2007~2011 (Co-PI: A. Kumar).
17. PI, *Analysis of Correlated Functional Process Variables for Manufacturing Process Diagnosis*, NSF CMMI-0600066 & CMMI-1002433, \$280K, 2006~2010 (Co-PI: A. Kumar), including supplement request of \$15K for Cyberinfrastructure Experiences for Graduate Students (CIEG).
18. Co-PI, *Nanoengineered, Manufacturable, Ion-Implantation Seeded Silica Nanowires for Sensitive BioScreening*, NSF CMMI-0700659, \$289,980, 2007~2010 (PI: S. Bhansali).
19. Co-PI, *Strategic Partnership on the Next Generation Manufacturing Research between HKUST and USC*, Sponsorship Scheme for Targeted Strategic Partnerships at Hong Kong University of Science and Technology, HK\$160,000, 2013–2016 (PI: Prof. F. Tsung, HKUST).

20. Co-PI *Hybrid BioFlex System for Personalized Restoration of Electromechanical Coupling of Injured and Regenerating Tissues*, USC VSoE Research Innovation Fund, \$9,000, 2012 (PI: T. Hsiai, BME; Co-PI: J. Yoon, CHE).
21. Co-PI, *Bayesian process control for nanomanufacturing with mixed resolution information*, Hong Kong RGC (Research Grant Council) #620508, 2008~2010, HK\$279,610 (PI: F. Tsung, Co-PI: J. Shi).
22. PI, *Multiscale Nanostructure Growth Modeling for Control of Nanomanufacturing*, Functional Multiscale Materials by Design Initiative, University of South Florida, \$7000, Summer 2007.
23. PI, *Part-Path-Oriented Measurement Strategy for Serial-Parallel Reconfigurable Manufacturing Systems with Real-Time RF-Tag Information*, \$7600, sponsored by NSF ERC-RMS at University of Michigan (Co-PI: R. Katz, Chief Engineer at ERC-RMS), 2004.
24. PI, *Process Control based on Multivariate Functional Data*, University of South Florida Internal Research Awards, \$2700, 05/04~04/05.

Publications

Books and Book Chapters

1. *Domain-Informed Machine Learning for Smart Manufacturing*, in preparation with Springer.
2. *Machine Learning for Quality Control in Additive Manufacturing*, Chapter in Edited book of *Recent Advances in Additive Manufacturing*, 2020, World Scientific Series in Advanced Manufacturing (Editor-in-Chief Dr. Satyandra K. Gupta).

Refereed Journals and Transactions

Note: (* indicates a coauthor who is/was a PhD student under my supervision)

Patents, Provisional Patents & Software Disclosure

1. Patent US9827717B2 *Statistical Predictive Modeling and Compensation of Geometric Deviations of 3D Printed Products*, granted on November 28, 2017 (Q. Huang, T. Dasgupta, and S. Sosina).
2. Patent US9886526B2 *3D Printing Shrinkage Compensation Using Radial and Angular Layer Perimeter Point Information*, granted on February 6, 2018 (Q. Huang).
3. Patent US10310922B2 *Systems and Methods for Predicting and Improving Scanning Geometric Accuracy for 3D Scanners*, granted on June 4, 2019 (Q. Huang).
4. Patent US20160320771A1 *Systems and Methods for Compensating for 3D Shape Deviations in Additive Manufacturing*, granted on November 12, 2019 (Q. Huang, H. Luan, and Y. Jin).
5. Patent US20190346830A1 *System and Method for Automated Geometric Shape Deviation Modeling for Additive Manufacturing*, granted on October 19, 2021 (R. Ferreira, A. Sabbaghi, Q. Huang, K. Amstutz).
6. US20230339185A1 *Convolution Modeling and Learning System for Predicting Geometric Shape Accuracy of 3D Printed Products*, pending, published on October 26, 2023, filed on September 28, 2020. (Q. Huang)
7. Patent US20230158595A1 *Prediction and Control of Product Shape Quality in Wire Arc Additive Manufacturing through Machine Learning*, pending, published on May 25, 2023, filed on November 22, 2022 (Q. Huang, C. Ruiz).
8. Patent WO2023283308A1 *Extended Fabrication-Aware Convolution Learning Framework for Predicting 3D Shape Deformation in Additive Manufacturing*, published on January 12, 2023, filed on July 7, 2022 (Q. Huang, Y. Wang, C. Ruiz).

Invited Talks

1. "Engineering-Informed Machine Learning for Additive Manufacturing Quality Control," , Department of Mechanical and Aerospace Engineering, Monash University, Melbourne, Australia, December 5, 2023.
2. "Infer and Control Effects of Lurking Variables," Causal Inference Study Workshop, Marshall School of Business, University of Southern California, November 30, 2023.
3. "Engineering-Informed Machine Learning for Additive Manufacturing Quality Control," , Modern Engineer and Technology Seminar (METS), Taipei, October 22-25, 2023.
4. "Engineering-Informed Machine Learning for Additive Manufacturing Quality Control," , Edward P. Fitts Department of Industrial and Systems Engineering, North Carolina State University, October 12, 2023.
5. "Engineering-Informed Machine Learning for Additive Manufacturing Quality Control," School of Computer Science and Engineering, Northeastern University, China, May 24, 2023.
6. "Engineering-Informed Machine Learning for Additive Manufacturing Quality Control," Department of Industrial Engineering and Management, Peking University, China, May 19, 2023.
7. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," Department of Industrial Engineering, Tsinghua University, China, May 18, 2023.
8. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," Academy of Mathematics and Systems Science, Chinese Academy of Sciences, China, May 16, 2023.

9. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," Shien-Ming Wu School of Intelligent Engineering, South China University of Technology, China, April 11, 2023.
10. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," Business School, Zhengzhou University of Aeronautics, China, April 6, 2023.
11. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," Business School, Zhengzhou University, China, March 31, 2023.
12. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," School of Mechanical Engineering, Shanghai Jiao Tong University, China, March 24, 2023.
13. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," Department of Mechanical and Mechatronics Engineering, University of Auckland, New Zealand, December 2nd, 2022.
14. Keynote speaker, "An Impulse Response Formulation for Machine Learning of 3D Printing Accuracy," The 19th International Conference on Electrical Engineering, Computing Science and Automatic Control (CCE 2022), Mexico City, November 11, 2022.
15. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," , Fowler School of Engineering Seminar Series, Chapman University, November 1st, 2022.
16. "Engineering-Informed Machine Learning for Additive Manufacturing Accuracy Control," , Industrial Engineering Department, University of Houston, September 16th, 2022.
17. "Quality Control as a Computational Service (QCaaS) for Future Manufacturing," Manufacturing & Industrial Technologies Division, AFRL (Air Force Research Laboratory), August 5th, 2022.
18. "Engineering-informed Machine Learning for Additive Manufacturing Accuracy Control," Campus Sante Innovation, MINES Saint-Etienne, July 18th, 2022.
19. "Engineering-informed Machine Learning for Additive Manufacturing Accuracy Control," LURPA, ENS (Ecole Normale Supérieure) Paris-Saclay, June 30, 2022.
20. "Engineering-Informed Machine Learning for Manufacturing, " Department of Industrial & Manufacturing Systems Engineering, Iowa State University, April 20, 2022.
21. "Machine Learning for Manufacturing, " Honor College of Viterbi School of Engineering, USC, April 8, 2022.
22. "Quality Control as a Computational Service for Smart Manufacturing, " Panelist for Manufacturing Day, USC Center of Advanced Manufacturing, October 1, 2021.
23. "Control-Theoretic Machine Learning for Intelligent 3D Printing Accuracy Control," Panel of Artificial Intelligence in Healthcare 3D Printing, 3DHEALS2021, March 25, 2021.
24. "Engineering-Informed Machine Learning for Intelligent 3D Printing Accuracy Control", Panel of Artificial Intelligence and Healthcare 3D Printing, 3DHEALS2020 conference, June 5-6, 2020.
25. "Engineering-Informed Machine Learning for Shape Distortion Control in Additive Manufacturing " Department of Mechanical and Aerospace Engineering, University of Central Florida, Orlando, FL. October 4, 2019.
26. "An Engineering-Informed Convolution Learning Framework for Shape Distortion Control in Additive Manufacturing " Department of Mechanical Engineering, University of Alberta, Edmonton, AB, Canada, August 30, 2019.
27. One of the nine invited symposium speakers, "A Convolution Framework for Learning and Predicting 3D Printing Shape Accuracy ", the 9th International Symposium on Quality Science and Reliability Technology, Peking University, July 5 and 6, 2019, Beijing China.
28. "Machine Learning for 3D Printing Distortion Control ", Webinar to INFORMS Quality, Statistics, and Reliability community and IISE Quality Control & Reliability Engineering community, April 24, 2019.

29. "Automated Machine Learning of 3D Printing Accuracy Models Under Cybermanufacturing Environments," University of Michigan-SJTU Joint Institute, Shanghai Jiao Tong University (SJTU), May 17, 2018.
30. "Automated Machine Learning of 3D Printing Accuracy Models Under Cybermanufacturing Environments," Chinese University of Hong Kong - Shenzhen, March 16, 2018.
31. "Data Analytics for Scalable Nanomanufacturing: Stochastic Modeling of Graphene Fabrications Processes ", USC-MFD Distinguished Lecture Series, Mork Family Department of Chemical Engineering and Materials Science, USC, September 7, 2017.
32. "Shape Accuracy Control for Additive Manufacturing" , 3D Print R&D Center, HP Inc., Barcelona, Spain, July 10, 2017.
33. Keynote speaker, "Geometric Shape Accuracy Control for Additive Manufacturing Through Machine Learning," European Forum on Additive Manufacturing, June 27-29, 2017, Paris, France (<http://www.afpr.asso.fr/les-assises/>).
34. "Geometric Shape Accuracy Control for Additive Manufacturing Through Machine Learning," LURPA, ENS (Ecole Normale Superieure) Paris-Sacaly, June 15, 2017.
35. "Geometric Shape Accuracy Control for Cyber-Physical Additive Manufacturing Systems," Chinese University of Hong Kong - Shenzhen, March 16, 2017.
36. "Geometric Shape Deformation Control for Additive Manufacturing" , Advanced Manufacturing Research Group, Faculty of Engineering, University of Nottingham, Nottingham, UK, January 25, 2017.
37. "Geometric Shape Accuracy Control for Additive Manufacturing" , Special Interest Group Meeting of European Society of Precision Engineering and Nanotechnology: Quality Control for Additive Manufacturing, Manufacturing Technology Center, Coventry, UK, January 23, 2017.
38. "Geometric Shape Accuracy Control for Additive Manufacturing" , International Manufacturing Centre, University of Warwick, Warwick, UK, January 20, 2017.
39. "Smart Calibration For Efficient Quality Control of Cyber-Physical Additive Manufacturing Systems " , Decision Systems Engineering Spring'17 Seminar Talk Series, School of Computing, Informatics, & Decision Systems Engineering, Arizona State University, January 13, 2017.
40. "Smart Calibration For Efficient Quality Control of Cyber-Physical Additive Manufacturing Systems " , 2016 Shenzhen International Smart Energy Forum, Chinese University of Hong Kong - Shenzhen, December 20, 2016.
41. "Smart Calibration Through Deep Learning for High-Confidence and Interoperable Cyber-Physical Additive Manufacturing Systems " , 2016 NSF Cyber-Physical Systems Principal Investigators' Meeting, Washington DC, October 31 - November 1, 2016.
42. "Accuracy Control for Additive Manufacturing", School of Industrial and Systems Engineering, Georgia Tech, October 28, 2016.
43. "Accuracy Control for Additive Manufacturing", Department of Industrial and Operations Engineering, University of Michigan, Ann Arbor, October 12, 2016.
44. "Smart Calibration for Cyber-Physical Additive Manufacturing Systems " , LURPA (Automated Production Research Laboratory), ENS Cachan (Ecole Normale Superieure de Cachan), France, July 21, 2016.
45. "Model Transfer Through Engineering Effect Equivalence", Department of Electrical Engineering, KU Leuven, Belgium, July 12, 2016.
46. "Smart Calibration of 3D Printing Processes Through Optimal Compensation of Shape Deformation " , Grado Department of Industrial and Systems Engineering, Virginia Tech, February 17, 2016.
47. "Smart Calibration of 3D Printing Processes Through Optimal Compensation of Shape Deformation " , HP Labs Palo Alto, February 9, 2016.

70. “Multiscale *In Situ* Nanomanufacturing Process Control: Challenges and Research Issues,” Academy of Mathematics and Systems Science, Chinese Academy of Sciences, Beijing, China, August 3, 2007.
71. “Multiscale *In Situ* Nanomanufacturing Process Control: Challenges and Research Issues,” School of Materials Science and Engineering, Jilin University, China, July 2, 2007.
72. “Modeling and Analysis of Fundamental Phenomena in Complex Manufacturing Systems for Quality and Productivity Improvement,” Mechanical Engineering Department University of Texas, Austin, March 29, 2007.
73. “Modeling and Analysis of Fundamental Phenomena in Complex Systems for Quality and Productivity Improvement,” ISyE Statistics Seminar, Industrial and Systems Engineering Department at Georgia Institute of Technology, March 9, 2007.
74. “Measurement Strategy through Sequential Root Cause Identification,” NSF Site Visit, Engineering Research Center for Reconfigurable Manufacturing Systems at University of Michigan, May 6, 2004.
75. “Stream of Variation Methodology for Serial-Parallel Reconfigurable Manufacturing Systems: Part-Path-Oriented Strategy,” Technical Advisory Committee Meeting, Engineering Research Center for Reconfigurable Manufacturing Systems at University of Michigan, October 15, 2003.

Teaching

Courses Taught

Undergraduate level

ISE 426: Statistical Quality Control (F10, F11, F12, F13, F14, F16, S18, F18, S19, F19, S20, F20, S21, S22)

Graduate level

ISE 610: Advanced Design of Experiments and Quality Engineering (F16, F17, F18, F19, F20, F21, F23)

ISE 599 (new): Advanced Topics on System Monitoring and Causal Inference with Complex Engineering Data (S22)

ISE 525: Design of Experiments (F09, F10, F11, F12, F13, F14, F15)

ISE 529 (new): Engineering Data Analytics (S15)

ISE 599 (new): Foundation of Applied Mathematic for Engineered System Analytics (S13)

ISE 651: Research Seminar (F09, S11, F11, F17, F19, S22)

Student Mentoring

Current Ph.D. students

1. Weizhi Lin, “3D Shape Modeling and Analysis in 3D Printing Through Manifold Learning”, 2019 ~ present.
2. Chris Henson, “In-Situ Process Monitoring and Control for Additive Manufacturing Processes”, 2019 ~ present.
3. Minghao Gu, “Engineering-informed Dimension Reduction,” fall 2021 ~ present.
4. Han Kyul Kim, “Causal Inference for Diversity-Enhanced Education,” spring 2021 ~ present (Co-advising).
5. Rohit Ramachandran, fall 2023.

Current and Past Post-doc Research Fellows

1. Dr. Cesar Ruiz, Conducting research on predictive maintenance and machine learning for additive manufacturing, September 16, 2020 ~ June 15, 2022. Current position: Assistant Professor at School of Industrial and Systems Engineering, University of Oklahoma, fall 2022 ~ Present.

Visiting Scholars

1. Ivanna Baturynska, Visiting PhD fellow in Additive Manufacturing, Department of Manufacturing and Civil Engineering, Norwegian University of Science and Technology (NTNU), Norway; October to December, 2019. Current position: *Associate Professor at NTNU*.
2. Dr. Sang Hun Lee, a General manager of KCC Corp, South Korea, February 2020 to January 2022, conducting Machine Learning and Big Data research for manufacturing, and his visit is funded by KCC Corp.
3. Mengqi Fan, Visiting PhD student, Department of Industrial Engineering, Tsinghua University, China; April to October, 2019.

Undergraduate Researchers

- Yilin Zhu (ISE senior), Rachel Xu (ISE junior), Chengxi Xu (CS junior), Mitchell Lin (CS junior), summer 2022.
- Kevin Sun (Viterbi CURVE fellow); fall 2020 ~ spring 2022.
- Catherine Tsai, spring 2021 (Viterbi CURVE fellow)
- Mandy Hartman (Viterbi fellow); fall 2020
- Austin J. Barrow, Purdue University; Kevin Sun and Jiyeon Park, USC; summer 2020, 2021.
- Austin J. Barrow, Honors Aerospace Engineering, Purdue University, summer 2019.
- Donggyun Kim and Byungjoon Park, School of Aeronautical and Mechanical Engineering, Korea Aerospace University, summer 2019.

Ph.D. Graduates

1. Hui Wang, Ph.D., Fall 2007, USF, “Error Equivalence Theory for Manufacturing Process Control.”(USF) Current position: Associate Professor (with tenure) at the Department of Industrial and Manufacturing Engineering, Florida State University, spring 2014 ~ Present.
2. Xi Zhang, Ph.D., Fall 2009, USF, “Physical and Statistical Analysis of Functional Process Variables for Process Control in Semiconductor Manufacturing.”(USF) Current position: Associate Professor with tenure, Industrial Engineering & Management Dept., Peking University, 2010 ~ Present.
3. Lijuan Xu, Ph.D., December 2013, USC, “Nanostructure Interaction Modeling and Estimation for Scalable Nanomanufacturing. ” Current position: Staff Data Scientist at Google, CA.
4. Li Wang, Ph.D., December 2013, USC, “Modeling and Analysis of Nanostructure Growth Process Kinetics and Variations for Scalable Nanomanufacturing. ” Current position: Director II of Data Science at Liberty Mutual Insurance.
5. Yanqing Duanmu, Ph.D., August 2017, USC, “Some Scale-up Methodologies for Advanced Manufacturing.” Current position: Data Scientist, Apple Inc.
6. He Luan, Ph.D., May 2018, USC, “Statistical Modeling and Machine Learning for Shape Accuracy Control in Additive Manufacturing.” Current position: Data Scientist at Google, CA.
7. Yuan Jin, December 2018, USC, “Statistical Modeling and Process Data Analytics for Smart Manufacturing” (Co-advising with Prof. Joe Qin). Current position: Data Scientist at Facebook, CA.
8. Nathan Decker, March 2022, USC, “Machine Learning-Driven Deformation Prediction and Compensation for Additive Manufacturing ”. Current position: System Engineer, ExoAnalytic Solutions.
9. Yuanxiang Wang, May 2022 “Fabrication-Aware Machine Learning for Accuracy Control in Additive Manufacturing ”. Current position: Assistant Professor, School of Mechanical Engineering, Tongji University, Shanghai, China, fall 2022 ~ Present.

M.S. Graduates

1. Hani Kababji, M.S., 2005, "Online Change Detection for Multichannel Functional Data." (USF)
Current position: senior consultant at Ernst & Young.
2. Shaoqiang Chen, M.S., Summer 2008, "Manufacturing Process Design and Control based on Error Equivalence Methodology." (USF). Current position: Chico's FAS.
3. Gang Liu, M.S., Fall 2009, "Nanostructure Morphology Variation Modeling and Estimation for Nanomanufacturing Process Yield Improvement." (USF)

Service

Editorial Service

Lead Editor, *IISE Transactions on Design and Manufacturing*, Special Issue: AI and Machine Learning for Manufacturing, 10/2021 – 07/2023.

Department Editor, *IISE Transactions on Design and Manufacturing*, 09/01/2017 – 12/31/2022.

Associate Editor, *ASME Transaction, Journal of Manufacturing Science and Engineering*, 08/01/2017 – 08/01/2023.

Associate Editor, *IISE Transactions on Design and Manufacturing*, 02/01/2017 – 01/31/2020.

Member of Scientific Committee, the 32nd DESIGN Conference of the International Academy for Production Engineering (CIRP).

Committee Member, International Scientific Committee for CIRP Conference on Computer Aided Tolerancing, 2018, 2020.

Guest Editor, *IISE Transactions on Design and Manufacturing*, Special issue on Additive Manufacturing, 03/2017 – 03/2018.

Member of Editorial Review Board, *Journal of Quality Technology*, 09/2016 – 08/2018.

Guest Editor, *Journal of Quality Technology*, Special Issue on "Quality Engineering in Advanced Manufacturing", 2015 – 2017.

Associate Editor, *IEEE Transactions on Automation Science & Engineering*, 2012-2016

Founding Associate Editor, *IEEE Robotics and Automation Letters*, July 2015-July 2016.

Associate Editor (Quality, Micro and Nano Manufacturing Systems), *SME Journal of Manufacturing Systems*, 2008-2011.

Special Issue Editor, "Quality, Sensing and Prognostics Issues in Nanomanufacturing", *Special Issue of the IIE Transactions*, 2010-2011.

Contributing Editor, InterNano (www.internano.org), online resource of the National Nanomanufacturing Network (NNN), 04/2012-04/2015.

Program Committee (PC), International Symposium on Flexible Automation (ISFA), 2014, 2016

Associate Editor of Conference Editorial Board, *IEEE Conference on Automation Science and Engineering (CASE)*, 2016, 2015, 2014, 2010, 2009.

Member of scientific committee (Editorial Board) for the *North American Manufacturing Research Institution (NAMRI) of SME*, 2009-2011, 2013-2015.

Executive Board member, The International Society for Manipulation, Manufacturing and Measurement on the Nanoscale - 3M-NANO International Society, since October 2014.

Associate Editor for the Conference Editorial Board (CEB) of the IEEE Robotics and Automation Society for ICRA 2015

Program Committee, 2014 Workshop on Nanoinformatics for Environmental Health and Biomedicine (<http://nanoinfo2014.weebly.com/>), held in conjunction with 2014 IEEE International Conference on Bioinformatics and Biomedicine, Belfast, UK, November, 2014.

Editorial Board Member, 2014, *Automation of Technological and Business Processes* Journal, Odessa National Academy of Food Technologies, Ukraine.

Program Committee Member, 2014, “Annual scientific and practical conference on Information Technology and Automation,” Odessa National Academy of Food Technologies, Odessa, Ukraine.

Co-organizer, 1st HKUST-USC forum on 3D Printing – Research and Practice, Hong Kong University of Science and Technology, January 18, 2014.

Program Committee, 1st International Conference on Manipulation, Manufacturing and Measurement on the Nanoscale (3M-NANO), 29 Aug - 2 Sept 2011 in Changchun, China.

Conference, Workshop, Research Forum Organization

General chair, *IEEE Conference on Automation Science and Engineering (CASE)*, August 2025, Anaheim, CA.

Member of Advisory Board, INFORMS Section on Quality, Statistics, and Reliability, July 2022 – present.

Lead organizer, *Machine Learning for Additive Manufacturing (ML4AM) Workshop*, 2022 IEEE 18th International Conference on Automation Science and Engineering (CASE), August 20-24, 2022, Mexico City, Mexico.

Founder and organizer, *International Workshop on the Foundations of Accuracy Control for Additive Manufacturing (FACAM)*, 2016 (USC), 2018 (USC), 2019 (ENS Paris-Saclay), 2020 (USC) (<https://facam-online.blogspot.com/>).

Chair-Elect (2011) & Chair (2012), INFORMS Section on Quality, Statistics, and Reliability.

Organizer, 2nd USC-HKUST-Purdue-NUS-Harvard Workshop on Predicative Modeling and Control of Additive Manufacturing, November 13, 2014.

Organizer, 1st USC-HKUST Workshop on Additive Manufacturing, October 9, 2013.

Government and Professional Institutions

Member of Steering Committee, IEEE Conference on Automation Science and Engineering (CASE), 2021 - present.

Co-chair of Manufacturing and Design Track, 2022 & 2021 IISE Annual Conference & Expo.

Panelist, NSF Proposal Review Panel, 2004, 2006 - 2009, 2011-2016, 2018-2022.

Reviewer for Ralph E. Powe Junior Faculty Award, ORNL, spring 2016.

Contributed session chair, “Predictive Modeling and Control for Additive Manufacturing”, *IEEE Conference on Automation Science and Engineering (CASE)*, 2016, 2015, 2014.

Member of steering committee, “Nanoinformatics 2013: Informatics for Nanomanufacturing,” National Nanomanufacturing Network, October 15-17, 2013, University of Pennsylvania, Philadelphia.

Council member of QSR (Quality, Statistics, and Reliability) section at INFORMS, 2010-2012.

Panel Organizer, “Quality Control for Nanomanufacturing,” INFORMS 2007, 2009.

Session Organizer, “Quality Control for Nanomanufacturing,” IERC 2007, INFORMS 2007-2011.

Symposium Co-organizer, “Advances in Quality Control in Multistage Manufacturing Systems,” 2006 ASME IMECE, Chicago, IL.

Session Chair of INFORMS Annual Meeting, 2003, 2005-2017; Session Chair of IERC 2004, 2006, 2007; Session Chair of NAMRI/SME Conference, 2003

Departmental, college, and university

ISE PhD Admission Committee and Graduate Committee, fall 2020, 2021, 2023

ISE Department Research Restart Task Force: 08/2020 ~ 2021

ISE Space Committee, 09/2020 ~ present

Member of ISE Faculty Search Committee, fall 2018 ~ March 2019; fall 2019 ~ spring 2020

Member of ISE Promotion Committee, summer 2019 ~ December 2019
Viterbi Research Committee, Viterbi School of Engineering, fall 2015 ~ 2020
Chair of ISE PhD Admission Committee, December 2017 ~ March 2018
Viterbi Space Review Committee, Viterbi School of Engineering, spring 2017
Chair of Departmental Space Committee, December 2016 ~ spring 2017
Viterbi Appointment Promotion and Tenure (APT) Committee, fall 2014 ~ fall 2015
USC Graduate School's Task Forces for Advanced PhD Fellowships, April 2015
ISE PhD Graduate Committee, December 2014~ 2015
ISE Chair Evaluation Committee, December 2014 - February 2015
ISE Predictive Analytics Program Committee, 2013, 2014
ISE Department Tenure Promotion Committee, 2013
ISE Department Faculty Search Committee, 2013
ISE Organizer and initiator: Epstein PhD Students' Seminar on Focused Topics, fall 2013
ISE Merit Review Committee, Feb 2013
ISE Chair of PhD Admission Committee, Nov 2012 to Feb 2013
ISE 220 Course Review Committee, 2013
Advisory Committee on East Asia and China Academic Initiative, Viterbi School, 2012-2014
Proposer and organizer of Epstein Institute Seminar Series, spring & fall 2011
Member of Engineering Faculty Council (EFC), 2010 - 2012
Chair of ISE Ph.D. Admission Committee, Dec 2012 - Jan 2013
Member of ISE Ph.D. Admission Committee, Dec 2010 - Jan 2011
ISE 220 Course Review Committee Chair, spring 2013
ISE 310 Course Review Committee, spring 2012
Chair of EFC Best Practices Subcommittee on Timing of Election of ERC Officers, spring 2011
Chair of ISE 225 Course Review Committee, spring 2011
ISE screening exam organizer, spring & fall 2010
Department merit review procedure committee, Fall 2009
Department ABET ISE 426 SQC review committee, Fall 2009
Viterbi school fellowship student conversion ad hoc committee, Fall 2009.

Professional Affiliation

IISE Fellow, ASME Fellow, Senior Member of IEEE (2016), & Member of INFORMS
