

Giacomo Nannicini

Email: g.nannicini@usc.edu, giacomo.n@gmail.com

Address: Olin Hall of Engineering, 3650 McClintock Avenue, Los Angeles, CA 90089

Telephone: Mobile +1 917 699 1346

Webpage: <https://sites.usc.edu/nannicini>

Google Scholar: <https://scholar.google.com/citations?user=AoE7DGcAAAAJ&hl=en>

Personal information: age 39, Italian citizenship

CV highlights:

- Multiple awards received, including: the Beale–Orchard-Hays prize, the Robert Faure prize, the Glover-Klingman prize.
- More than USD 1.5M in grants as PI or co-PI.
- Extensive teaching experience with outstanding teaching evaluations.
- Author of popular software used in industry and academia.

Research interests:

- *Quantum computing*: theory, algorithms and software for quantum computers, in particular: quantum optimization, quantum compilers, quantum simulation, algorithms for near-term devices.
- *Data analytics*: theory, algorithms and software for the solution of optimization problems under uncertainty, in particular: linear and nonlinear integer programming, network optimization, dynamic programming, derivative-free optimization.
- *Applications*: applications in analytics, sustainable energy systems, supply chain, transportation, architecture, quantum chemistry.

Employment history:

- August 2022 - now: associate professor in the Daniel J. Epstein Department of Industrial and Systems Engineering, University of Southern California, 3551 Trousdale Parkway, Los Angeles, CA.
- January 2016 - August 2022: research staff member in the Theory of Quantum Computing and Information group at *IBM Research*, T.J. Watson Research Center, 1101 Kitchawan Road, Yorktown Heights, NY.
- July 2011 - September 2016: assistant professor in the Engineering Systems & Design pillar at the *Singapore University of Technology and Design*, 20 Dover Dr, Singapore. (On leave January - September 2016.)
- September 2009 - June 2011: research fellow at in the Tepper School of Business at *Carnegie Mellon University*, 5000 Forbes Avenue, Pittsburgh, PA.
- November 2006 - September 2009: researcher at *Mediamobile*, 27 boulevard Hypolite Marquès, Ivry sur Seine, France.

Visiting positions:

- Visiting associate professor at *Laboratoire d'Informatique de Paris-Nord*, Institut Galilée, Université Paris-Nord, 99 avenue Jean-Baptiste Clément, Villetaneuse, France, 2014-2016 (multiple visits).
- Visiting scholar at *Sloan School of Management*, Massachusetts Institute of Technology, 77 Massachussets Ave, Cambridge, MA, between July 2011 and July 2012.

Education:

- November 2006 - June 2009: Ph.D. in Computer Science at *Ecole Polytechnique*, Paris, France. Final mark: *très honorable*¹.
- September 2004 - September 2006: M.Sc. in Computer Engineering (“Ingegneria Informatica”) at *Università degli studi di Firenze*, Florence, Italy. Final mark: 110/110 summa cum laude.
- September 2001 - September 2004: B.Sc. in Computer Engineering (“Ingegneria Informatica”) at *Università degli studi di Firenze*, Florence, Italy. Final mark: 110/110 cum laude.

Publications:

PATENTS:

- Currently $\approx 12?$ US patents pending – details available upon request. (Sorry, I stopped keeping track of the exact number.)
- G. Nannicini. *Estimation de trafic dans un réseau routier* (in French), French patent FR0756225 and European patent EP2012290. 2009.
- G. Nannicini. *Estimation de plus court chemin dépendant du temps dans un réseau routier* (in French), French patent FR0800366 and European patent EP2235477. 2009.
- G. Nannicini, D. Delling and D. Schultes. *Estimation de plus court chemin dépendant du temps dans un réseau routier* (in French), French patent FR0851725 and European patent EP2257766. 2009.

EDITED BOOKS:

- S. Cafieri, A. Mucherino, G. Nannicini, F. Tarissan, L. Liberti (eds.). *Proceedings of CTW09 Conference*, Paris, 2009.

THESES:

- Ph.D. thesis: *Point-to-Point Shortest Paths on Dynamic Time-Dependent Road Networks*. Advisors: L. Liberti, P. Baptiste, D. Krob. Defense: 18th June 2009.
- M.Sc. dissertation²: *Global optimization of black-box functions with high evaluation cost* (in Italian). Advisors: F. Schoen, P. Cappanera. Defense: 26th September 2006.
- B.Sc. dissertation²: *Prediction of cysteine bonding status with machine learning methods* (in Italian). Advisors: P. Frasconi, A. Passerini. Defense: 15th September 2004.

TECHNICAL REPORTS:

- G. Nannicini. A snapshot of quantum algorithms for optimization. *Oberwolfach Reports* series (OWR) 26/2019.
- G. Nannicini. On generalized Benders decomposition and outer approximation for convex chance-constrained problems. *Oberwolfach Reports* series (OWR) 46/2015. Based on joint work with Andrea Lodi, Enrico Malaguti, Dimitri Thomopulos.
- J. Kalikka, X. Zhou, G. Nannicini, R. E. Simpson. Layered 2D crystals by design: optimisation of Sb_2Te_3 -GeTe van der Waals superlattices. 2015. Available at: *arXiv*, paper 1509.01335 (<http://arxiv.org/abs/1509.01335>).
- G. Cornuéjols, F. Margot, G. Nannicini and C. Tjandraatmadja. Selecting active cuts in MIP solvers. First-summer research paper at CMU Tepper, September 2013.

EDUCATIONAL WORK AND OTHER WORKS:

- G. Nannicini. An equation-free introduction to derivative-free optimization. *Bulletin de la ROADEF* (ROADEF newsletter), number 34, 2015.
- K. Otto, B. Camburn, A. Mathur, R. Bouffanais, E. Kyoseva, D. Poletti, R. Simpson, G. Nannicini, J. Yong, K. Wood. Integrated 2D Design in the Curriculum: Effectiveness of Cross-Subject Engineering Challenges. *American Society for Engineering Education Annual Conference*, Indianapolis, Paper ID# 8653, 2014.

²In the Italian education system, a written thesis must be prepared and discussed after each course of study.

Prizes and awards:

- 2021 Best Paper (Quantum Algorithms track) at IEEE QCE 21 for the paper “Simpler (classical) and faster (quantum) algorithms for Gibbs partition functions” (co-authored with S. Arunachalam, V. Havlicek, K. Temme, P. Wocjan).
- 2021 Beale–Orchard-Hays prize for the papers “RBFOpt: an open-source library for black-box optimization with costly function evaluations” (co-authored with A. Costa) and “On the implementation of a global optimization method for mixed-variable problems”, awarded every 3 years by the Mathematical Optimization Society for excellence in computational mathematical programming.
- 2017 Singapore “Good Design” Award (SG Mark), together with T. Schröpfer and T. Wortmann, for our work on derivative-free optimization in architectural design (RBFOpt + Opossum).
- 2016 COIN-OR Cup, together with graduate student T. Wortmann, for the contribution of open-source software for architectural design optimization (RBFOpt + Opossum).
- 2015 Prix Robert Faure, awarded every 3 years to a researcher under 35 years by ROADEF for contributions to operations research.
- 2012 Glover-Klingman prize for the best paper published on *Networks* in 2012 (paper co-authored with D. Delling, D. Schultes, L. Liberti).
- Other recognition:
 - Discrete Optimization 10 Year Anniversary Special Issue: one of my papers (co-authored with G. Cornuéjols and C. Michini) was chosen for this selection of “ten excellent papers [...] published in this journal over the last decade”, 2014.
 - Selected for the IBM Regional Journal of Eminence, a “recognition for leadership and technical excellence”, 2016.
 - Finalist, Microsoft Research Faculty Fellowship 2014.
 - Second prize at *Prix de l'innovation de l'Ecole Polytechnique*, 2009.

Some mentions of my work in the news:

- On quantum computing: Wall Street Journal, New York Times, Scott Aaronson’s blog, MIT Technology Review, New Scientist, Bloomberg, Singularity Hub, IEEE Spectrum.

Grants and sponsorships:

- *Quantum algorithms for machine learning, optimization, and simulation*, project member, funded by Army Research Office, 2020. 3 year duration, \$724K.
- *Quantum computer science*, PI, funded by IBM Research Frontiers Institute, 2019. 2 year duration, \$500K.

- *Quantum applications*, PI, funded by IBM Research Frontiers Institute, 2017. 2 year duration, \$1M.
- *Integrated tools for efficient optimization of parametric designs*, Co-PI, funded by International Design Center, 2015. 1 year duration, S\$80K.
- *An algorithmic approach for energy production scheduling under uncertainty*, PI, MoE Tier 1 Academic Research Fund, 2015. 2 years duration, S\$55K.
- *Optimization tools for generative method in architecture and sustainable design*, co-PI, funded by International Design Center, 2012. 2 years duration, S\$651K.
- *Algorithm design for cutting planes in Mixed-Integer Linear Programming*, PI, funded by SUTD and International Design Center, 2011. 3 years duration, S\$100K.

Software projects:

Main author:

- **V-tactic**, route planner for <http://www.v-traffic.fr>: high-performance parallel software for time-dependent shortest paths computations on large dynamic graphs. Commercial license, not publicly available.
- **COIN-OR RBF0pt**: an efficient implementation of the RBF method for the global optimization of functions available through an expensive oracle (“black-box”). Project manager and maintainer. Available on PyPI (\approx 5000 downloads each month). Open-source.
- **COIN-OR CglRedSplit2**: Reduce-and-Split and Lift-and-Project + Reduce-and-Split cut generator for MILPs. Available in COIN-OR Cgl (trunk). Open-source.
- **COIN-OR CglGMI**: numerically safe Gomory Mixed-Integer cut generator for MILPs. Available in COIN-OR Cgl (trunk). Open-source.
- **Coupe**: high-throughput parallel solver for nonconvex MINLPs. Available on request. Open-source.
- **Recipe**: VNS-based heuristic for nonconvex MINLPs that coordinates global/local search of any solver with an AMPL interface. Available on personal webpage. Open-source.
- **Cut safety testing framework**: an algorithmic framework for testing the safety of cut generators in a Branch-and-Cut setting. Available on personal webpage. Open-source.
- **ADP Toolbox**: a toolbox for the approximate solution of stochastic dynamic programs of certain classes. Available on personal webpage. Open-source.

Contributor:

- **Qiskit**: several contributions to Qiskit Aqua: Variational Quantum Eigensolver, optimization interfaces, and more. Available on Qiskit’s webpage and PyPI. Open-source.
- **COIN-OR Couenne**: contributor of primal heuristics (**CouenneIterativeRounding**) and bound tightening techniques (**CouenneAggrProbing**) for a Branch-and-Bound solver for nonconvex MINLPs. Available on COIN-OR’s webpage. Open-source.

- SCIP: contributor of Gomory Mixed-Integer cut generator. Available on ZIB's webpage. Open-source.

Invited and plenary conference talks:

- Plenary panelist at *2022 CORS/INFORMS International Conference*. Vancouver, BC, Canada, 2022.
- Lecturer for the spring school at *ISCO 2022* (International Symposium on Combinatorial Optimization). Online conference, 2022.
- Invited tutorial at *SIAM OP21*. Online conference, 2021.
- Plenary talk at *ROADEF 2020*. Université de la Méditerranée, Montpellier, France, 2020.
- Invited talk at the *CRM MINLP workshop*. Montreal, QC, Canada, 2019.
- Plenary talk at *MOPTA 2019*. Lehigh University, Bethlehem, PA, 2019.
- Invited tutorial at the *2017 International Symposium on Computer Performance, Modeling, Measurements and Evaluation*. Columbia University, New York, NY, 2017.
- Invited talk at the *International Workshop on Modern Optimization and Application*. Chinese Academy of Sciences, Beijing, China, 2016.
- Invited talk at the *Workshop on Emerging Topics in Conic and Discrete Optimization*. Singapore University of Technology and Design, Singapore, 2014.
- Invited talk at the *Workshop on Mixed Integer Programming (MIP) 2014*. Ohio State University, Columbus, OH, 2014.
- Invited talk at Condor Week. University of Wisconsin at Madison, WI, 2012.
- Invited talk at the *Workshop on Mixed Integer Programming (MIP) 2011*. University of Waterloo, ON, Canada, 2011.
- Invited talk at the *Workshop on Multiple Row Cuts in Integer Programming*. Bertinoro, Italy, 2009.
- Invited talk at the *Spring Workshop on Computational Issues in Mixed Integer Nonlinear Programming*. Université Bordeaux 1, Bordeaux, France, 2009.

Seminars:

- Seminar at Cornell University (Ezra Round Table seminar series in Systems Engineering), Ithaca, NY, 2021.
- Seminar at University of L'Aquila, Italy, 2021.
- Seminar at Texas Tech University, Industrial, Manufacturing & Systems Engineering, Lubbock, TX, 2021.
- Seminar at LIPN, Université Paris 13, Paris, France, 2021.

- Seminar at University of Iowa, Tippie College of Business, Iowa City, IA, 2021.
- Seminar at Yahoo Research, New York, NY, 2020.
- Seminar at University of Illinois Chicago, College of Business Administration, Chicago, IL, 2020.
- Seminar at Argonne National Laboratory, Mathematics and Computer Science, Lemont, IL, 2019.
- Seminar at the Decision, Risk and Optimization seminar series of the IEOR department, Columbia University, New York, NY, 2018.
- Seminar at the Operations Research series of the Tepper School of Business, Carnegie Mellon University, Pittsburgh, PA, 2017.
- Seminar at the Operations Research series of the Operations Research Center, Massachusetts Institute of Technology, Boston, MA, 2017.
- Seminar at Università degli studi di Bologna, Bologna, Italy, 2015.
- Seminar at LIPN, Université Paris 13, Paris, France, 2015.
- Seminar at IBM T. J. Watson, Yorktown Heights, NY, 2015.
- Seminar at University of Minnesota, Minneapolis, MN, 2014.
- Seminar at IBM Research Singapore, 2014.
- Seminar at IBM T. J. Watson, Yorktown Heights, NY, 2014.
- Seminar at Université Paris Dauphine, Paris, France, 2014.
- Seminar at LIX, Ecole Polytechnique, Palaiseau, France, 2013.
- Seminar at Zuse Institut Berlin, Berlin, Germany, 2013.
- Seminar at IBM T. J. Watson, Yorktown Heights, NY, 2013.
- Seminar at Carnegie Mellon University, Pittsburgh, PA, 2012.
- Seminar at Freie Universität Berlin, Berlin, Germany, 2012.
- Seminar at Université Paris Dauphine, Paris, France, 2010.
- Seminar at Carnegie Mellon University, Pittsburgh, PA, 2009.
- Seminar at Università degli studi di Firenze, Firenze, Italy, 2009.
- Seminar at IBM T. J. Watson, Yorktown Heights, NY, 2008.
- Seminar at Polytech'Tours, Tours, France, 2008.
- Seminar at Università degli studi di Modena e Reggio Emilia, Modena, Italy, 2007.

Other conferences with contributed talks:

- INFORMS 21, Anaheim, CA, 2017.

- SIAM PP 20, Seattle, WA, 2020.
- ICCOPT 19, Berlin, Germany, 2019.
- ISMP 18, Bordeaux, France, 2018.
- INFORMS 17, Houston, TX, 2017.
- SIAM Conference on Optimization, Vancouver, Canada, 2017.
- ICCOPT 16, Tokyo, Japan, 2016.
- Workshop on Combinatorial Optimization, Aussois, France, 2016.
- Workshop on MINLP at Mathematisches Forschungsinstitut Oberwolfach (MFO), Oberwolfach, Germany, 2015.
- ISMP 15, Pittsburgh, PA, 2015.
- ESA 13, Sophia-Antipolis, France, 2013.
- Workshop on Combinatorial Optimization, Aussois, France, 2013.
- ISMP 12, Berlin, Germany, 2012.
- Workshop on Combinatorial Optimization, Aussois, France, 2012.
- CPAIOR 11, Berlin, Germany, 2011.
- Workshop on Hybrid Methods for Nonlinear Combinatorial Optimization, Berlin, Germany, 2011.
- SIAM Conference on Optimization, Darmstadt, Germany, 2011.
- Workshop on Combinatorial Optimization, Aussois, France, 2011.
- INFORMS 10, Austin, TX, 2010.
- MOPTA 10, Bethlehem, PA, 2010.
- SIAM 10 Annual Meeting, Pittsburgh, PA, 2010.
- European Workshop on MINLP, Marseille, France, 2010.
- Workshop on Combinatorial Optimization, Aussois, France, 2010.
- ISMP 09, Chicago, IL, 2009.
- IFIP 09, Buenos Aires, Argentina, 2009.
- CTW 09, Paris, France, 2009.
- ROADEF 09, Nancy, France, 2009.
- Workshop on Combinatorial Optimization, Aussois, France, 2009.
- COCOA 08, St. John's, Canada, 2008.
- MATHEURISTICS 08, Bertinoro, Italy, 2008.

- WEA 08, Cape Cod, MA, 2008.
- CTW 08, Milan, Italy, 2008.
- ROADEF 08, Clermont-Ferrand, France, 2008.
- INFORMS 07 Annual Meeting, Seattle, WA, 2007.
- CAL 08, Paris, France, 2007.
- CTW 07, Twente, The Netherlands, 2007.

Other presentations:

- Poster at MIP 2010. Georgia Institute of Technology, Atlanta, GA, 2010.
- Poster at MIP 2009. University of California at Berkeley, Berkeley, CA, 2009.
- Poster at the IMA workshop: Mixed Integer Nonlinear Optimization, Algorithmic Advances and Applications. Minneapolis, MN, 2008.
- Talk at the Automatic Reformulation Search workshop. Ecole Polytechnique, Paris, France, 2008.

Editorial activities:

- Associate editor for Journal of Optimization Theory and Applications.
- Associate editor for Open Journal of Mathematical Optimization.
- Technical editor for Mathematical Programming Computation.

Conference organization activities:

- Member of the organizing committee of the Workshop on Trends in Computational Discrete Optimization, to be held at ICERM, April 2023.
- Chair of the organizing committee of the Workshop on Quantum Computing and Operations Research, to be held at the Fields Institute, October 2022.
- Member of the organizing committee for ACO@CMU, a workshop in honor of Gerard Cornuejols 70th birthday, 2022.
- Cluster chair of INFORMS Computing Society conference 2022.
- Minicluster organizer at INFORMS annual meeting 2021.
- Member of the program committee of IEEE Quantum Computing and Engineering Week 2021.
- Member of the program committee of ISMP 2021.
- Cluster chair of INFORMS Computing Society conference 2019.
- Member of the scientific committee of ISMP 2018.

- Chair of the program committee of MIP 2018.
- Member of the program committee of MIP 2017.
- Session organizer at ICCOPT 2016.
- Member of the program committee of WCO 2015.
- Session organizer at ISMP 2015.
- Member of the program committee of ESA 2014.
- Member of the program committee of WCO 2014.
- Session organizer at ICCOPT 2013.
- Session organizer at ISMP 2012.
- Member of the program committee of ATMOS 2012.
- Member of the local organizing committee of TOGO 2010.
- Member of the local organizing committee of CTW 2009.

Professional service:

- Chair of the INFORMS Computing Society working group on quantum computing.
- Chair of SIAM “Guided Affinity Group” on Quantum Computing for the SIAM CSE21 conference.
- From 2017 to 2020: chair of the Operations Research PIC (Professional Interest Community) for the IBM T.J. Watson lab.
- Chair of the committee for the 2017 COIN-OR Cup.
- From November 2015 to December 2021: member of the Strategic Leadership Board of the COIN-OR foundation.
- From May 2012 to October 2015: member of the Ph.D. program committee of the Engineering Systems & Design pillar at SUTD, responsible for establishing, planning and managing the Ph.D. program since its inception.
- From 2013 to 2014: organizer of the ESD Brown Bag Seminar Series.
- External project reviewer for:
 - US National Science Foundation.
 - French “Agence Nationale de la Recherche (ANR)”.
 - European Research Council.
 - Italian Ministry of Education, University and Research.
 - Portuguese “Fundação para a Ciência e a Tecnologia”.
- Examiner for the following Ph.D. theses:

- Dounia Lakhmiri, Department of Mathematics and Industrial Engineering, Polytechnique Montreal, 2021.
- Shi Dongjian, Department of Mathematics, National University of Singapore, 2013.

Teaching:

- At *Lehigh University*, Bethlehem, PA:
 - Quantum computing. Graduate level.
- At *Columbia University*, New York, NY:
 - Quantum computing (special topics in IEOR). Graduate level.
- Short graduate course “An introduction to quantum computing, without the physics”:
 - At *IBM T.J. Watson*, Yorktown Heights, NY, in 2017, 2018.
 - At *LIPN, Université Paris 13*, Paris, France, in 2017.
 - At *SUTD*, Singapore, in 2017.
- At *SUTD*, Singapore:
 - Linear optimization (2013, 2014 and 2015, Fall term, course 40.510). Graduate level.
 - Optimization (2013 and 2014, Fall term, course 40.002). Undergraduate level.
 - Modeling the Systems World (2013, 2014 and 2015, Spring term, course 10.007). Undergraduate level.
 - Advanced Math II (2012, Fall term, course 10.004). Undergraduate level.
- Teaching associate at *MIT Sloan*, Cambridge, MA:
 - Optimization methods in Operations Research (2012, Spring term, course 15.058). Undergraduate and graduate level. Responsible for recitations, problem sets, quizzes and midterms, and contributing to lecture development.
 - Optimization methods in Management Science (2012, Spring term, course 15.053). Undergraduate level. Responsible for problem sets, quizzes and midterms, and contributing to lecture development.
- Teaching assistant at *Ecole Polytechnique*, Paris:
 - Introduction to C++ (2007, Spring and Fall term, 2008, Spring and Fall term, 2009, Spring term).
 - Introduction to Computer Science (2007 and 2008, Spring term).
 - Operations Research (MISIC 2007, Fall term).
 - Mathematical Programming: Modeling and Applications (2008, Fall term).

Teaching evaluations: (more details available upon request)

- Course instructor at *SUTD* for PhD course 40.510, Fall 2015:

- Overall rating: 4.52/5.0.
- Course lead at *SUTD* for course 10.007, Spring 2015:
 - Overall rating as a lecturer (all sections): 4.27/5.0.
 - Overall rating as cohort instructor (one section): 4.6/5.0.
- Course instructor at *SUTD* for PhD course 40.510, Fall 2014:
 - Overall rating: 4.37/5.0.
- Course instructor at *SUTD* for course 40.002, Fall 2014:
 - Overall rating as cohort instructor (one section): 4.9/5.0.
- Course lead at *SUTD* for course 10.007, Spring 2014:
 - Overall rating as a lecturer (all sections): 4.2/5.0.
 - Overall rating as cohort instructor (one section): 4.3/5.0.
- Course instructor at *SUTD* for PhD course 40.510, Fall 2013:
 - Overall rating: 4.53/5.0.
- Course lead at *SUTD* for course 40.002, Fall 2013:
 - Overall rating as a lecturer and course lead (all sections): 4.56/5.0.
 - Overall rating as cohort instructor (one section): 4.8/5.0.
- Course lead at *SUTD* for course 10.007, Spring 2013:
 - Overall rating as a lecturer (all sections): 4.3/5.0.
 - Overall rating as cohort instructor (one section): 4.4/5.0.
- Course instructor at *SUTD* for course 10.004, Fall 2012, two sections:
 - Overall rating: 4.3/5.0, 4.5/5.0.
- Teaching associate at *MIT Sloan* for course 15.058, Spring 2012:
 - Overall rating: 6.73/7.00.

Former students and researchers:

- Co-advisor of Brandon Augustino, PhD student at ISyE, Lehigh University. (Current.)
- Co-advisor of Juan Jose Torres Figueroa, PhD student at LIPN, Université Paris 13. (Current.)
- Co-advisor Thomas Wortmann, PhD student in the Architecture & Sustainable Design pillar at SUTD. Subsequent position: assistant professor at Xi'an Jiaotong-Liverpool University.

- Advisor of Giorgio Sartor, PhD student in the Engineering Systems & Design pillar at SUTD. Subsequent position: postdoctoral research fellow (tenure-track equivalent) at SINTEF.
- Advisor of Alberto Costa, postdoctoral research fellow, January 2013 to January 2015. Subsequent position: postdoctoral research fellow at National University of Singapore, Industrial and Systems Engineering.

Professional membership:

- Member of the INFORMS Computing Society and the INFORMS Optimization Society.
- Member of the Mathematical Optimization Society.
- Member of SIAM.
- Member of DIMACS.
- Full member of the COIN-OR Foundation.

Consulting and other external activities:

- Consultant for Singapore Diamond Investment Exchange Pte Ltd (commodity exchange in physically settled diamonds, <http://www.sdix.sg>), 2014–2015.
- Advisor for “Claire – 30 Seconds to Fly” (<http://www.30secondstofly.com/>), since 2015.

Computer skills:

PROGRAMMING LANGUAGES: Excellent knowledge of C, C++, AMPL, Python. Good knowledge of Linux Bash shell, R. Working knowledge of Java, Octave, Matlab.

OPERATING SYSTEMS: Good knowledge of UNIX and Windows operating systems.

OPTIMIZATION SOFTWARE: Excellent knowledge of COIN-OR Cbc, COIN-OR Cgl, COIN-OR Bonmin, COIN-OR Couenne, Cplex callable library, SCIP.

QUANTUM COMPUTING: Excellent knowledge of Qiskit.

Languages:

ITALIAN: mothertongue.

ENGLISH: excellent written and verbal skills.

FRENCH: excellent written and verbal skills.
