It doesn’t matter where we’re from. IT MATTERS WHERE WE’RE GOING.

We’re 75,000 people from different backgrounds moving toward one destination: global security. On our team, you’ll discover that diversity is more than a written policy: we live and breathe it. Our mission of global security unites people of different cultures, experiences, ideas, genders, and work styles. We’ll support you through training and employee resource groups, which strengthen skills and understanding.

We have a long history of drawing strength from our differences. In fact, in 2011 DiversityInc named us one of the Top 50 Companies for Diversity—the first defense company to make the list.

Across our career areas and around the globe, we see the value of our performance every day. We are Northrop Grumman. And freedom is at the heart of what we do.

We’re looking for MS and PhD students for our Future Technical Leaders program. If you’re a U.S. citizen graduating in 2012/2013 academic year with a degree in Science/Engineering, we want to meet you!
