SHPE-USC Cordially invites you to…

**Discover Engineering Day**

**Date:** February 22, 2013  
**Time:** 8 am – 3 pm  
**Location:** USC Campus

Discover Engineering Day helps promote a young student’s engineering skills by challenging their imagination, creativity, organization, and business skills to get an innovative idea to market. You will have the opportunity to serve as a mentor for these students as you help with assigned engineering tasks. Students will also participate in workshop panels including: Women in Engineering, Life of an Engineer, and The Workforce. There will be consistent interactions and mentorship opportunities between you and the students throughout the day.
